"Security Now" TWiT Show*

Easy to use - set and forget! MSP360 will back up your data directly to Microsoft Azure account and provide easy restore with a few clicks.

Benefits:

Built for Microsoft Azure

Solution is fully integrated with Microsoft Azure service for data storage, data transfer and disaster recovery.

Cross-Platform Backup

Windows Server Backup

Life-Time License

CloudBerry Backup works on Windows, Mac and Linux operating systems

Key features:

Image-Based and File-Level Backup

Make a snapshot of your systems or backup individual files and folders.

Disaster Recovery to Azure VM

Restore your server directly to Microsoft Azure VM for disaster recovery.

256-bit AES Encryption

Protect your data before uploading to the cloud. You own the password.

MS SQL Server and MS Exchange Support

With built-in VSS support, you can backup applications such as MS SQL Server and MS Exchange.

Cloud to Local Backup

Automate backup of the cloud data to local storage, external or network drive.

MSP360 Backup comes with a free 15-day trial.
